VOL. 53—NO. 83.

HAZARD, KENTUCKY

MONDAY, MARCH 9, 1964

COPY—10c

Flood Scare Rises As Rains Forecast

Hazard residents had quite a scare over the weekend when reports of thunderstorms and continuing rains were forecast. The river was rising and so were the fears.

Amidst all the forecasts, residents in the flood districts were advised forecasts, and actual raising of the river, rumors poured freely. Everything from 2 to 4 inches of rain to a full-fledged flood were predicted by people were, of course, inaccurate. Telephone lines were busy, the radio station and state police were besieged continuously with phone calls from people who were in the flood districts, and friends ran to neighbors' houses with the latest weather reports from various sources. Panic reigned throughout.

Around 8 p.m., Sunday night, Hazard residents who lived

Fire Razes Home Saturday

One home was completely demolished and two considerably damaged in a fire at Airport Gardens Saturday night. Hazard firemen were called to the home of Garland Baker at 3:57 p. m. Saturday, but were unable to extinguish the fire.

They saved the home of Callie Hanks, which is next to the Baker home, but it suffered considerable damage. The home of Jack and Glenna Hall was scorched and several of the windows were broken by the heat.

Mr. Baker was at home alone when the fire broke out. His wife and two children were at the drive-in movie nearby.

After the fireman returned to Hazard, they discovered that the pump on the old fire truck was damaged. The truck will have to be taken to Louisville for repairs.

Fire Chief Lawrence 'Shorty' Sizemore would like to remind the public that this will leave as only one fire truck until the old one is repaired which will probably be from a week until 10 days. Everyone is urged to be extremely careful with fires.

FHA Plans To Take Applications For Grants

The Farmers Home Administration will take applications for grants to repair houses on the first and third Fridays of each month. We do not expect to stop taking applications, so it will not be necessary for everyone to try to come in the first day.

Man Arrested For Car Theft

A former Hazard resident, Albert Gamble, of Indianapolis, was arrested in Hazard on Wednesday night, February 26, by Perry County Deputies, for allegedly stealing a car in Indianapolis.

Perry County officials waived their rights to Gamble and he was turned over to the F. B. I. officials for violation of the Dyers Act for bringing the car out of state.

He was taken to Jackson for arraignment. He will be tried in the Federal Court in Jackson.

Brannon and Akers Perform

Leslie County and Dilce Combs fought for a Regional position in the first round of the semi-finals of the 54th District Tourney Friday night. Leslie County won the decision, 50-33.

In foreground are Russell Brannon and Larry Akers. In background from left are Larry Thomas (42), Carlson Lewis (22), Phillip McReynolds (31), and Charles Minks, (14).

Rev. Bob Sizemore To Speak At Services In Bulan Church

Bulan Community Church will hold special services starting Sunday, March 15 through March 22, at 6:30 p.m. each evening with Rev. Bob Sizemore preaching and Rev. Raymond Haddix leading.

Rev. Sizemore is the Staff Evangelist and Special Representative of the Appalachian Bible Fellowship. He is a graduate of the Appalachian Bible Institute, took liberal arts subjects at Fairmont State College and Bob Jones University and earned his B. A. degree from Carson-Newman College at Jefferson City, Tennessee.

A native of Covington, Virginia, Rev. Sizemore has had experience in many avenues of Christian Service having done youth work of several kinds, rescue mission work, evangel-

istic work and having been engaged in pastoral ministries.

Rev. Raymond Haddix is a member of the Scripture Memory Mountain Mission and lives in Bulan, Ky. He is active in the Camp Nathaniel summer camp program and works with the Nathaniel Youth Crusaders among the young people in the high schools in this area.

Miner Injured In Accident Friday

A Second Creek resident, Barney Campbell, was injured in a mine accident at E A S Coal Company, where he was employed, Friday.

He was taken to the Mount Mary Hospital and then on to Central Baptist Hospital in Lexington where his condition is listed as improving. He is allowed visitors.

Rev. Bob Sizemore

Shrine Club To Meet March 13

Hazard Shrine Club will hold their regular meeting, Friday, March 13, at 7 p.m. A fish dinner with all the trimmings will be served to the members attending.

Vital questions are to be discussed as to how the club can best serve the crippled children in this area.

President Bill Perry urges all members to attend.

Hazard Wins District, Plays Breathitt Co. First In Regional

The Hazard Bulldogs beat Leslie County 68-46 to win the 54th District High School basketball tournament Saturday night and advance as the favorite to win the 14th Regional playoffs in Memorial Gym starting Wednesday night.

Ahead by three points at half time, the Bulldogs held the Eagles to five field goals in the second half while netting eleven of their own to gain their 22 point advantage at game's end.

The Bulldogs opened the game with six straight points before the Eagles scored, but then Leslie County's flashy guard Bobby Osborne went to work and scored a fantastic 13 points in four and a half minutes to lead the Inspired Eagles to a 17-14 lead at the end of the first quarter.

Hazard came back to tie it up 20-20 with two minutes gone in the second period, then went ahead on Kenny Tate's only field goal of the game.

The lead changed again at 25-24 on free throws by Leslie's Bruce Vance, but a driving lay-up by Jim Rose put the Bulldogs back out in front 26-25, this time for good.

Jim Rose again paced the Bulldog attack with twenty one points, on 7 field goals and 7 at the free throw line. Joe Davis was close behind with 20. Fred Hogg had a good night with 17. Chester Rose got 5, Ken Tate 2, Houston Hogg one and reserve guard David Baker two.

Hazard moved into the district playoffs by virtue of wins over Leatherwood Thursday night and M.C. Napier on Friday. Leslie County beat Buckhorn last Wednesday and Dilce Combs on Friday to meet Hazard in the finals.

Hazard High School has placed three men on the Hazard Herald's 54th district tournament team for 1964.

Joe Davis, 6'1" senior guard headed the ten man team with teammates Jim Rose and Freddie Hogg also being chosen.

The Hazard Herald All-Tournament Team:

Joe Davis—6'1" Senior—Hazard
Jim Rose—6'2" Fresh—Hazard
Freddie Hogg—6'4" Soph—Hazard;
Preston Fortney—6'3" Junior—Leslie Co.
Phillip McReynolds—6'1" Junior—Leslie County;
Gordon Fugate—6'6" Junior—M. C. Napier;
Don Fugate—6'1" Senior—M.C. Napier;
Chet Wootton—5'7" Senior—Buckhorn;
Joe Pratt—5'9" Senior—Leatherwood;
Bo Strong—5'6" Soph—Dilce Combs.

Weather Box

Tuesday	63	44
Wednesday	78	45
Thursday	52	42

Had approximately 1/2 inch of rain river raised approximately three feet. Tonight will be clearing and cooler with a low in the middle 20's. Tomorrow will be cloudy and warmer with high near 50.

14th Region Roundup; Tourney Starts Wednesday

By Arlis Fields

It'll be Hazard's doom or Breathitt County's fall when the 14th regional tournament opens Wednesday night in Memorial Gym.

Breathitt County, winner of this event for the past five years, is not as strong as in past years but a lot of fans believe the Bobcats will make their presence well known before the firing ends Saturday night. The Bobcats defeated Hazard by 4 points at Jackson but the Bulldogs own the regular season game plus the H.I.T. contest here in Hazard. All-state candidate James Turner heads the Breathitt attack with good support coming from Eugene Turner and 6'2" sophomore Alfred Raleigh.

Sharpshooting senior Joe Davis heads a well balanced canine attack that features a good fast break and of late a strictly all-court press. 6'2" Freshmen Jim Rose has Hazard fans buzzing about the next three years of Bulldog cage action. Hazard has a solid rebounding twosome in 6'5 1/2" sophomore Chester Rose and 6'4" second year man Freddie Hogg.

In other upper bracket action the Leslie County Eagles take on the Wolfe County Wolves in the tournament opener at 7:00 Wednesday night. The Hazard-Breathitt affair kicks off at 8:30.

Leslie County, 54th district

runner-up, sports a well balanced attack with 6'3" Junior Preston Fortney, 6'1" Phillip McReynolds and 5'10" Bobby Osborne carrying most of the scoring load.

Wolfe County has its strongest outfit in years with 6'3" senior guard Gene Neff leading the attack.

Looking at the Thursday night's lower bracket action Fleming-Neon, number 2 choice to win the tourney behind Hazard, takes on Morton: Combs' Carr Creek Indians while Owsley County tangles with Letcher High.

Fleming-Neon has the best record of any tournament participant compiling 23 wins against only 2 losses. The Pirates bested Carr Creek 61-53 at Hindman two weeks ago and are favored to dispose of the Creekers again this time.

However, Carr Creek had a relatively cold night from the field two weeks so if the Creekers are hitting we could have a 'big upset come Thursday.

Owsley County's Owls are picked to make the tourney semi-finals Friday night by disposing of Letcher's Eagles.

If season records provide any clues as to tourney champions it'll be Hazard and Fleming-Neon battling for the big hardware and a trip to next week's chibbole duiry in Lexington.

Jumpin' Jim Rose Controls Ball

Friday night in the semi-finals of the 54th District Tournament at the Memorial Gymnasium, the Hazard Bulldogs and the Napier Navajos battled for a berth in the 14th Regional Tournament that will start at 6:30 p. m., Wednesday, March 11. Hazard won, 67-49.

At left is Doug Gibson (41), Freddy Hogg, Wade Hoskins, Jim Rose, Joe Davis (with back to camera), and Gordon Fugate (55)

1963 Flood Scene In Hazard

Does this scene look familiar? This is one section of Hazard during the 1963 flood. Hazard residents remembered scenes like this when the water started rising yesterday. The '63 flood came up on March 12, almost a year from this date. Although the waters did not reach flood stage Sunday, the water rose enough to cause a few families to move to higher places.

In the lower right hand corner is Bailey's Restaurant at Wabaco. A section of Allais can be seen in the upper left corner. The top center of the picture is the bridge leading from Walkertown to Wabaco.

Dynamic Program for Economic Development of Appalachian Area

(NOTE—Following are excerpts from a recent address in Cincinnati by Harry Caudill, of Whitesburg, author of the book "Night Comes to the Cumberlands." The program was endorsed by American Public Power Association; Rural Electric Co-Op. Association; AFL-CIO and United Textile Workers).

Today one of the most significant challenges which confronts America is: Can this nation fulfill its responsibilities with a fifth of a nation's population impoverished? One of the areas where the problem is most acute is the Appalachian region, which has suffered serious economic decline since the end of World War II. Unemployment has reached as high as 30 percent in some labor market areas in Appalachia. This is a black mark on our economic system.

In the 1930's, when a similar situation existed in the valley of the Tennessee River, Franklin D. Roosevelt moved to eradicate a needless waste of human and physical resources by pressing for the creation of the Tennessee Valley Authority. When FDR sent the TVA Act to Congress he said:

This in a true sense is a return to the spirit and vision

of the pioneer. If we are successful here we can march on, step by step, in a like development of other great natural territorial units within our borders.

For 30 years the TVA has been functioning in that area, and though by no means finished with the job it set out to do, the TVA speaks for itself in its record of accomplishments.

In 1933, the year TVA was established, the per capita income in the Tennessee Valley area was 45% of the national average; by 1962 it had risen to 66% of the national average.

The steady increase in per capita income in the Valley has among other things, resulted in \$20 billion in added Federal income tax payments from individuals in the Valley in the period 1933-1963.

Now, President Johnson has declared war on poverty and has singled out Appalachia as one region that demands immediate action. Because of the attention which has been focused on the economic ills of Appalachia, the eyes of the nation and the world will watch the program for this region with keen interest. Success or failure here will be an indicator of whether or not the American economic system has the ability to cure its ills as well as provide a pattern for meeting similar problems in other parts of the world.

If the Federal government is to assume a proper role in bolstering the unsteady and uncertain economy of Appalachia it must assure a sizeable expansion of investments in wealth-producing functions of that region. Presently over one-quarter billion dollars per year are being poured into Appalachia in various forms of the dole, creating no new wealth, fostering a welfare society and breaking down the basic human values of the people.

This dole cannot continue. Unless the Federal government can come up with a program of resource development, human and physical, which will bring permanent benefit to the region through creation of a sound base for economic growth, failure is unavoidable. We propose a program which will shift the balance in Appalachia from exploitation to conservation, from unemployment to economic development, from unemployment to economic development, from poverty to prosperity. This program will not be a panacea, but a long term expanding investment in

and for the people of Appalachia and for the people of the United States.

Federal Appalachian Development Corporation

An effective program for the Appalachian region must envision at least two objectives: (1) stimulation of non-Government industrial and commercial enterprise to build payroll capability and (2) establishment of a self-sustaining source of cash flow to finance capital improvements in the broadest sense of the term, i. e.: public works, community facilities, industrial and municipal water supply and sewage treatment facilities,

and, of prime importance, educational facilities and financial support of their utilization at all levels of attainment.

Because of the relatively large number of states and localities involved, we believe that this total marshalling of the natural and human resources of the Appalachian region can best be achieved by an independent, Federal Government corporation with broad authority in the field of resource development and with independent financing powers based on self-liquidating bonds.

The mountainous terrain of Appalachia, and its proximity

Letters From Principal and Students At R. W. Combs School

Happy, Ky.
March 4, 1964
Dear Editor of
The Hazard Herald:

Our children at Robert W. Combs are enjoying the many books of the Bookmobile from the Bobby Davis Memorial Library.

This is the only source of good books the children have because Robert W. Combs School has no complete library.

The children have heard that the Bookmobile needs immediate money to continue.

The children are expressing their appreciation of the Bookmobile, and they hope that the necessary cash can be raised to keep their much needed library service.

John D. Adams,
Yours,

R. W. Combs School
Happy, Kentucky
March 5, 1964

Editor
Hazard Herald
Dear Sirs:

We wish to thank the Bobby Davis Memorial Library for sending the book mobile and for letting us read the books. We would not have any books if the teachers didn't get to check them out because we don't have a library at R. W. Combs School. We are very grateful for these books.

Very sincerely,
Alice Sumner.

Hazard Herald
Dear Editor:

We would like to extend our deepest gratitude for all the books you bring us every two or three weeks.

We have no library at our school. If you take it away from us we will have nothing to look forward to. But we will remember you because you did let us read some of your books.

Very Sincerely,
Anita McIntyre,
R. W. Combs School

Dear Editor:

Our school thanks the bookmobile for visiting our school this year. We were wishing it

would continue to visit us. The books we read were very interesting and we would wish to read some more. Our teacher checks out 10 books each time it comes.

We do not have a library so would like to have it keep visiting us.

Sincerely yours,
Debbie Howard.

Dear Sir:

We wish to thank you for letting us use the bookmobile. The books were very helpful to us. The books helped us to improve our ability to read.

We don't have a library at R. W. So we do not have any books to read.

We would certainly like to have further use of the bookmobile.

Sincerely,
Betty Joseph.

Dear Sir:

We of Robert W. Combs Elementary have no library. I think it is a great opportunity to have the bookmobile visit our school. I appreciate it very much. The books improve our reading ability.

I hope you will accept this little thank you from a greatly satisfied heart.

Sincerely yours,
Debbie McIntosh.

Dear Sir:

We have no library at Robert W. Combs School. When the bookmobile comes each teacher is able to check out ten books for the students to read. The bookmobile has helped our reading ability.

We would like to thank the Jefferson Davis Memorial Library for sending the bookmobile to us. We would also wish that it would keep coming.

Yours truly,
Yvonne Hampton.

Plans for Industrial Development

(Continued from last Monday)

An estimated 95 per cent of the farm products produced are home orchards, pork and beef used for family living. Gardens, for family needs, poultry for eggs and meat, and strawberries for family use and local farm families get social security, welfare, food stamps, or other income. Some part time farmers are employed in mines or in other industries.

Trade and Services—A brief look at the general business situation in Perry County was given by Larry Caudill for the Trade and Services Committee. Perry County had 327 retail trade units in 1958 with a total sales volume of \$23,722,000. More retail units and volume of sales are as follows: 49 general merchandise stores, \$717,000; 118 food stores, \$6,315,000; 16 automotive dealers, \$4,412,000; 25 gas service stations, \$1,474,000; 14 dry good stores, \$1,755,000; 13 furniture stores, \$1,385,000; 46 eating establishments, \$1,290,000 and 29 other retailers \$118,000.

"Projects which should be completed before 1970 are Carrs Fork Dam and Reservoir; Line Fork Dam and Reservoir; Mountain Parkway Extension; Picnic and Park Area Development; and development of major mountain and other recreational facilities."

"All possible means and media will be used to promote projects and to coordinate local, state and federal efforts. Quality of personal services such as restaurants and service stations will be upgraded by local effort."

Raleigh Johnson reported for Government and Finance Committee. He listed property tax

rates for Hazard and Perry County. He stated that real estate ratio for Hazard was 60 per cent and 18 percent for Perry County. Mr. Johnson listed the public facilities made available and improvements and expansion of telephone, and sewer and water services. He stated that the Committee recommends that the study be made of the county tax assessment ratio and that garbage disposal sites be made available in City and County.

Fiscal Sanity Restored To Bill

Some measure of fiscal sanity has been restored to the State Budget Bill by House Republicans and the Senate.

Two amendments instigated and promoted by House Republicans were ignored by the Democratic leadership. The majority party, guided by dogmatic short-sightedness from the Governor's Office, refused to amend the budget during the first vote on the bill. Further Republican efforts, aided by four conscientious House Democrats, resulted in the adoption of the amendments by the Senate.

After an apologetic speech to the House by the Governor, the chagrined Democratic leadership moved that the House concur with the Senate and include the two amendments.

Satisfied with the inclusion of their amendments, House Republicans joined with the majority party to pass the final Budget Bill, 94 to 0.

Bruce Blythe,
Press Secretary

Woman Power Pool Information By National BPW

Miss Virginia Allen, President of the National Federation of Business and Professional Women's Clubs, Inc., has announced the launching of a Nationwide talent search to develop a womanpower pool of highly qualified people to fill top jobs in business and industry, as well as in the government.

Explaining that BPW's action was a natural response to President Johnson's drive to upgrade the role of women in American life, Miss Allen said the talent search had first been undertaken to feed names into the White House of women with outstanding qualifications for specialized top positions. Now, recognizing that business, industry and the professions have "room at the top" for women also, the search has been enlarged, and that she has personally delivered the first group of names submitted through the government talent search to the White House last week.

The search will be conducted through the state Federations affiliated with the national organization, and letters are going out to the nation's big corporations and major organizations representing business and professions to notify them of the availability of womanpower pool information.

"If we are to make President Johnson's drive truly meaningful, we cannot be content with locating top caliber women for government positions alone. We must see that the drive has impact through American life, as the President intended. We believe there are more top jobs for women in business and professions if employers have access to information on the women whose experience and capabilities match the job requirements and responsibilities. That is the reason for the womanpower pool."

"Seldom has such an opportunity presented itself to show what women can do. Indeed the spotlight is on women and it is up to us to demonstrate that we have the women who can live in the spotlight while performing at the top executive level." Miss Allen continued, "Never was it more important that we as individual women demonstrate our understanding of the full meaning of the Federation's current theme, 'The Responsibility for Full Partnership.'"

Going on to discuss implications of the report issued last fall by the President's Commission on the Status of Women, Miss Allen emphasized "it does not make a special plea for women. It treats us co-citizens made it very evident that its with men. The Commission interest is in the well-being of the American economy as a whole. It looks toward a society in which, we, as women, will no longer occupy special positions with special protections but will assume responsibilities and exercise rights as co-citizens and co-workers."

She added that another project undertaken by the Federation as a result of the report is a "Partnership with Youth" program. It is designed to help young women prepare for a future in which, on the average, each will spend 25 years of her life in the labor force. "Few young women today realize the stark reality of these statistics or the necessity of equipping themselves to make their years in the labor force fruitful both for them and for our economy and society."

Black Day For Traffic Fatality

February 19 was a black day on Kentucky highways.

The 100th traffic fatality of 1964 was reported then, a shocking 18 per cent increase over the same period in 1963. By that date last year, 82 traffic fatalities had been recorded.

"If the present traffic accident rate and the death toll continue," said State Public Safety Commissioner Glenn Lovern, "we will see more than 900 deaths by motor vehicles recorded by the end of the year."

Last year there were 837 killed in traffic accidents. In 1962 there were 793, and in 1961 there were 722.

Hazard's HBI Tigers of 1923 Make Semi-Finals

Only three years after being organized, the HBI Tigers of 1923 went to the State Tournament where they lost in the semi-finals to Manual, who was champion that year. The Tigers only lost one other game that year when they were defeated in the Tri-State Tournament in Cincinnati. The following year the Tigers travelled to the State Tournament again where they were defeated, in a fairly close game, by the Henry Clay Blue Devils. The players are, front row, left to right, Keiffer Strickland, Kelly Deaton, Charlie Smith. Second row, Sam Combs, Mason Knuckles, Bill Mayhew, Harvey Lusk and Coach L. E. Strickland. Keiffer Strickland made the State All-Tournament Team in 1923. —Photo Courtesy Sanders Petrey

Dynamic Program for Regional Development

(Continued from Page 1)
indicates good prospects for water and land resource development oriented toward recreation and electric power development, but with substantial emphasis also placed on impoundments for industrial and municipal water supply. Sewage treatment facilities and water distribution and sewage collection systems for the smaller communities are also needed. These are the kinds of projects that, in part at least, will be paid for by user charges over a period of years, assuming a simultaneous accelerated economic growth.

The sale of hydroelectricity from multiple purpose reservoirs will supply some cash flow but statistics indicate that by 1980 only 9% of the region's electric energy will be derived from water power. Nonetheless, such projects do not substantially reduce the demand for fuel, and constitute valuable peaking capability to complement and assure the most efficient operation of fuel fired steam stations.

The construction and operation of educational facilities, and the subsidization of their use—apparently the most critical need of Appalachia—are not a self-liquidating program and must be financed from other sources, but of course would be aided by a broadening of the industrial base.

We are of the strong opinion that utilization of the region's historically basic resource—coal—in very large size steam electric generating stations, with the payment of a part of the power sales revenue into an "Appalachian Development Assistance Fund", would tend to reestablish mining payrolls, add power plant construction and operation payrolls, attract new industries and create a self-sustaining cash flow to fund land and water resource development and the construction and operation of needed educational facilities—all to be programmed in close cooperation with the state and local governments.

Preferably, the development corporation would generate the power and transmit it over Federal transmission lines to major load centers for delivery at wholesale. The power could be sold to all types of utilities—privately, publicly and cooperatively owned. Financing of generation and transmission facilities by a public corporation through the issuance of bonds sold in the private money market would provide these advantages, among others: (1) power would be produced at the lowest possible cost; (2) funds could be made available to the development corporation

for other regional development programs (3) power could be sold to all utilities, public and private; and (4) thermal power could be integrated with publicly developed hydro resources. Although construction of some transmission lines would be needed to deliver power to load centers, existing lines also could be used to "wheel" power, where feasible.

Appalachia possesses 39% of the nation's recoverable bituminous coal. Using modern, extra high voltage transmission techniques, electricity can be economically delivered to load centers 1000 miles from the source of generation. Thus, economic interconnection of Oregon and Arizona is feasible. Consolidated Edison Company has announced that it will forego installation of thermal capacity and substitute power purchased from a Labrador hydro station 1,135 miles from New York.

Our studies indicate that publicly financed plants in Appalachia can deliver wholesale electricity anywhere in the eastern one-half of the United States, except the Tennessee Valley, cheaper than it is now generated at major load and population centers. And, these calculations include the payment into an "Appalachian Development Assistance Fund" of 1-2 mill on each kilowatt hour so delivered.

The possibilities for such a plan are enormous. PFC studies show that from 1965 through 1980 the eastern United States will continue some 19 trillion kwh of electricity. Power plant capacity will increase during the same period from 129 million kw to 320 million kw, a 148% increase. Thus, approximately 60% of the above 19 trillion kwh, or some 11.4 trillion kwh, will be generated in new plants. At 1-2 mill per kwh, the full potential of such an increase would, if achieved, pour \$5.7 billion into the "Appalachian Development Assistance Fund" during this 15 year period. What we contemplate is a complex of large scale low cost generating stations throughout Appalachia.

With respect to reestablishing non-government payrolls, the United Mine Workers Journal calculates that for each additional million tons per year of coal mined, 400 new jobs are created. Assuming that, under modern conditions, the ratio of coal consumption to plant capacity is about 2,500 tons per megawatt per year, the growth potential for the eastern United States during the next 15 years is 480 million tons per year or 184,000 new coal mining jobs alone by 1980.

We recognize, of course, that

100% achievement of the calculated potential could not be realistically expected. Assuming, however, that a substantial fraction of the potentially available new jobs and cash flow assistance available from coal resource utilization were achieved, we believe the program well worth undertaking via a Federal Government resource development corporation, which could obtain its financing in large part from the sale of bonds in the private money market, much as municipalities, state governments and the TVA sell bonds for various self-liquidating projects.

Establishment of Cooperatives

The predominately rural nature of Appalachia suggests that a bold new approach is required to fill voids which exist in developing much of the area's natural and human resources. Studies of the region have clearly established that to achieve the end result of raising the income and living standards, there first must be comprehensive programs to prepare for utilization of the natural and human resources of the area. Among these programs, in addition to the development of coal as described already, would be those that deal with reforestation and timber management; control of flooding, erosion, and water management; more efficient agriculture; upgrading education with emphasis on vocational training and retraining; and public facilities.

As basic as these programs are to breaking the poverty cycle in Appalachia, there must be some vehicle available to transform resource development into permanent economic progress. We believe that non-profit cooperatives are the best vehicle for this task in the rural and marginal areas of the region. Cooperatives could provide many advantages other than economic. They stimulate initiative and leadership and promote self-confidence and pride of ownership. And cooperatives insure that economic benefits are retained in the area.

A rural cooperatives agency should be established, preferably in the U. S. Department of Agriculture, to assume a major role in assisting the people of Appalachia to make fuller use of their resources. This agency should have the responsibility of helping to organize the non-profit cooperatives in rural Appalachia which are needed to fill existing voids. Moreover, the agency should have the authority to provide capital either in the form of loans or grants, or both, and to provide technical assistance.

Hazard, Kentucky

My dear, if a low grade is the only burden you have right now, it will pass. Isn't it wonderful that we can't see all the future problems we're going to have, that God provided for us to live just one day at a time? I read of an illustration of this point by Dr. Emerson S. Colaw, a Cincinnati Minister who said, "Bridges are built to accommodate certain loads with allowances for extra stresses. However, if all the load that is to pass over the bridge during its lifetime comes at the same time, the bridge would collapse." So would we, if we had to take all the burdens of yesterday, today, and tomorrow at once.

I'm glad you are not indifferent about your school work. There are so many students who don't care whether they get their lessons or not, and many even quit as soon as they are old enough because there was a little work involved in going to school. They surely must know that jobs require a High School Diploma now, and another sad thing, these students are setting a pattern for their future and one day they will look back to this time and wish they had really made an effort. Most businesses go back to a person's High School to get grades and character references when considering them for a job, so it behooves all students to get on the ball and stay there.

In a recent Guidepost Magazine, Katherine Marshall tells

of a 21 year old boy whose problem was indifference and lack of motivation. Because his parents cared very deeply about this problem, they enlisted several other people in prayer. Soon the boy got a job on a ranch in Colorado. He had to work hard digging post holes, horseback riding, getting used to distances and long periods of silence. Through these experiences he began to develop self-discipline and to find himself as a person. A year later he lived with a Christian family while working in a West Coast industry. Through this family's Christian living he realized that it was up to him as to how much his life would count. When he realized no one else could make this decision or live his life for him, he was ready to commit himself to Christ. His indifference has been cured and he is making good.

We must have a purpose and a reason for living and for the Christian it is all wrapped up in Christ and our relationship to Him. For those who don't know Christ in a personal way, my heart aches for them to know Him as Lord and Saviour and then they won't have to worry about a purpose or a reason for living.

Pamela Vauld Starr says: "Reach high, for stars lie hidden in your soul. Dream deep, for every dream precedes the goal."

Love,
Aunt Maggie

20 Perry County Pre-School Youngsters Take Practical Lessons in Pilot Program

Frankfort—Twenty children from low-income homes in Perry County are participating in a newly-launched pilot program here in day-care training.

Ranging in age from three to six, the pre-school youngsters are getting practical lessons in how to get along with other children, how to cooperate with teachers, and how to handle such elementary materials as scissors, books, crayons and puzzles.

Organized by the State Department of Child Welfare, the program is being carried out in cooperation with the Presbyterian Child Welfare Agency at Buckhorn, and the Perry County boards of Education and Health.

The project also offers the children snacks, a hot lunch, and training in health and hygiene.

The children, mostly from remote, mountainous sections of the county are spending their first few days getting used to such items as hot water ("Lawdy, would you look at that," said one young lad who had never seen water from a faucet) and to a widespread assortment of playthings.

Later, the children will be grouped by age for more organized activities.

State Child Welfare Commissioner Richard J. Clendenen said the program is designed to give the underprivileged youngster a better background for starting school.

He said research has shown

that a child without some form of pre-school training, either in a nursery, day-care center or kindergarten, requires from three to six months in the first grade to actually begin the learning process.

"The advantages of day-care training lie in the fact that it helps the child adjust to taking directions from a teacher, and to play and work in cooperation with other children. With these basic problems solved, he can enter school prepared to learn," Clendenen said.

The children arrive at 8 a.m. at the Child Welfare Agency, which donated the use of a wing of its girls' dormitory. For those youngsters who may need it, a hot breakfast is served.

For outdoor recreation, Mrs. Monroe Riley, a full-time helper at the center, takes half the group at a time out to the agency's playground, with its swings, slide and merry-go-round.

The half that remains inside plays games with teacher Mrs. Steve Sandlin who took a leave of absence from the Perry County schools to work with the day-care center.

50th Anniversary Celebrated By Wilkersons' Feb. 7

Mr. and Mrs. Tom Wilkerson of Hazard, and their son, Marlon, and wife, traveled to Illinois February 3 to visit Mr. and Mrs. Wilkerson's daughter, Liz Feltner, and family. They also visited four other sons, Monroe, Raymond, Harvey and Harold.

The Tom Wilkersons' had been married 50 years on Feb. 7. They celebrated their anniversary on Sunday, Feb. 9, with their children in Illinois.

One son, Sam, stayed in Hazard to keep the home fires burning in order to make the trip possible for his parents.

Another daughter, Sidney, was unable to be present due to sickness in her family. Attending the celebration were Mr. and Mrs. Monroe Wilkerson and family, Mr. and Mrs. Raymond Wilkerson and family, Mr. and Mrs. Marlon E. Wilkerson, Mr. and Mrs. Harold Wilkerson and family, Mr. Harvey Wilkerson and a friend, Lynn, Mr. and Mrs. Florence Feltner and family, Mr. and Mrs. Edwin Feltner and family, Mr. and Mrs. Ronald Wilkerson, Mr. Donald Wilkerson, Mr. and Mrs. J. C. Wilkerson and daughter, Mr. Raymond Feltner, Mr. and Mrs. Jim Feltner and Mr. Luke Feltner.

Mr. and Mrs. Wilkerson and Luke Feltner returned to Hazard. The others all reside in Illinois.

Eslinger Announces Letting of Contract For Men's Dorm

President Troy Eslinger has announced awarding of the contract for the new men's dormitory at Lees Junior College. The contract, in the amount of \$172,000.00, has been awarded by the Lees Board of Trustees to Paul Blanton General Contracting Company. Work will begin immediately with the facility set for completion and occupancy by September first and the opening of the new college year. Architects for the new dormitory are Wichman, Sallee and Martin of Lexington.

The site of the new construction will be the Southeast corner of the campus, where landscaping will remove a deteriorated portion of the concrete bleachers of Barkley Stadium. The dormitory itself, a three story structure, will provide 66 new spaces for resident men, a supervisor's suite, and lounge and recreation facilities for occupants.

In announcing the awarding of the contract, President Eslinger cited it as "the first stage of a long range plant development program under active consideration by the College's Trustees."

MAIN STREET HAZARD

Mr. and Mrs. E. B. Brashear

History of the Life E. B. Brashear

By E. B. Brashear

I was born December 17, 1879, in a one-room log house on the Kentucky River between Viper and Fusonia. My parents were James (Stub Jim) and Elizabeth Pratt Brashear.

I was one of 14 children. I have four brothers and one sister still living: Hiram, who is now 91, R. Lee, Eli and Mrs. Lucinda Combs, all of Viper; and Preston T. Brashear of Milan, Indiana.

I married Eliza Sumner, the daughter of James and Sally Back Sumner, on December 15, 1898. We were blessed with eight children, all of whom are still living. They are Dewey of London, Enos of Viper, Elbert of Allais, Leonard and Everett of Middletown, Ohio, Mrs. Laura Fields of Walkertown, Mrs. Leatha Caudill and Mrs. Clara Thomas of Fusonia. We have 18 grandchildren and eleven great-grandchildren.

In my early life I farmed and logged for my livelihood. I

went to Jackson with a wagon and team to buy goods before the railroad was built and ran the river on rafts in the spring when there was high water.

I have lived all of my married life on the Big Branch. I made one trip to Indiana to visit my brother about 1930, which is the only time I was ever out of the state of Kentucky.

In my later life I was a carpenter before retiring. I am a member of the Old Regular Baptist Church and have been for many years.

I am 84 and my wife is 85. We have been married for 66 years.

Editor's Note: Mr. Brashear qualifies for our "Over 80" special which entitles him to a life subscription to The Hazard Herald in return for his life story above. We have several other applicants whose life stories will be printed as soon as time and space are available.

Key Club International Wins Top Award Reports Kiwanis Club President Ward

As astronaut Lieutenant Colonel John H. Glenn, Jr. looks on, Kenneth Cohen (17), Trenton, New Jersey, President of Key Club International, (right) receives a top Freedom Foundation Award from Dr. Kenneth D. Wells, President of the Freedom Foundation at Valley Forge. The Key Club award came for the organization's 1963 theme, "Fulfill Freedom's Challenge." It was presented at Valley Forge on February 22. Key Club is a high school boys' service organization sponsored by Kiwanis International. It numbers 67,000 members in 2700 United States and Canadian high schools. Glenn, himself, was a top award winner.

Key Club International, high school boys' service organization sponsored by Kiwanis International, has won a top award in the annual Freedom Foundation Americanism competition, according to Don A. Ward, president of the Kiwanis Club of Hazard. The Kiwanis Club of Hazard sponsors the Key Clubs of Dilce Combs High School and M. C. Napier High School.

The award which was presented to Kenneth Cohen, 17, of Ewing Township High School, Trenton, New Jersey, on February 22, at Valley Forge, came for Key Club's 1963 theme, "Fulfill Freedom's Challenge." Dr. Kenneth D. Wells, president of the Freedom Foundation, made the presentation.

Key Club International, which comprises approximately 67,000 high school boys in 2700 U. S. and Canadian high schools, was cited as follows: "Sixty-seven thousand high school young men adopted an eight point program which stressed strengthening spiritual growth, preserving our common heri-

tage and ideals, putting democracy on the offensive, inspiring intelligent leadership, stressing higher moral standards by promoting mental and physical fitness."

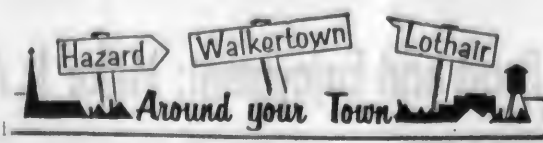

Kiwanis International, too, was honored. The organization received a Distinguished Service Award for its 1963-64 theme, "Responsibility - The Key to Freedom." Kiwanis has won a top award each year since Freedom Foundation began.

Circle K International, a college men's service organization also sponsored by Kiwanis, received a George Washington Honor Medal.

Calendar of Events

MARCH 10

The Lucy Nicholson Circle of the First Baptist Church will meet Tuesday, March 10, at the church. Rev. T. H. Harding will be in charge of the program.

Phone Your Socials To 6-5114, 6-4573 Or 6-2095

Mr. and Mrs. A. R. Barber were in Ashland last week where Mr. Barber attended a manager's meeting of the Kentucky Power Company held there Tuesday and Wednesday.

Mrs. David Henry and son David Daniel visited her parents, Mr. and Mrs. Jonah Daniel, here last week.

Colonel John Baker of Fort Meade, Maryland, was the weekend guest of his parents, Mr. and Mrs. Barney Baker, Woodland Park.

Mr. and Mrs. T. G. Bingham and family of Lexington visited relatives and friends here last week.

Mrs. Miller Cornett spent the weekend in Frankfort visiting her son, Mr. Robert M. Cornett, Mrs. Cornett and children.

Students from Berea College home for the weekend were Miss Pamela Johnson, Miss Ada Lynn Asbury, Miss Mildred Nan Baker and Mr. Jimmie Nunn.

Mr. and Mrs. Russell Ingram and Mrs. Jake Kimberlin attended the School of Instruction of District 5 of the Eastern Star held in Morehead last Saturday. Mrs. Marguerite Wilder of Buckhorn, who is a past Grand Matron of the Grand Chapter of Eastern Star, attended with them.

Mr. Eddie Ray of Ashland was a business visitor here Friday.

Mrs. Gene Parker returned Friday from a three weeks stay in Pompano Beach, Florida. Enroute home, she visited her daughter, Mrs. W. G. Begley, and Dr. Begley in Louisville. She was accompanied home from Louisville by Mrs. E. E. Begley, who is visiting relatives and friends here.

Fear not, only believe.

—(Mark 5:36)
If we but express our belief in God in the strongest of affirmatives we will invite into our experience the full expression of God-life and overcome all trace of fear.

MRS. DICY ISON

Life Story of Dicy Ison

By Dicy Ison

I was born October 25, 1877, in Letcher County, and was reared near the mouth of Elk Creek at Blackey. My parents were Spencer and Vina Dixon.

I was one of eleven children, six of whom are still living. Other than myself there are two brothers, Eddy and Willie, and three sisters, Mary and Angeline Dixon and Mrs. Susan Combs, still living.

On March 6, 1896, I married Jonah Ison, the son of Juda and Mose Ison. We had eight children, five of whom are still living. They are Mrs. Dishman Callihan of North Vernon, Ind.; Mrs. Daw Callihan, Mrs. Manon Callihan and Mrs. Jasper Halcomb, all of Cornettsville; and Mrs. Grant Smith of Banks, Ky.

My husband passed away May 7, 1912, but I was blessed to raise my eight children without any income except good management and work on the farm. My children all stayed at home until they married and had a home of their own.

I have been a member of the Old Regular Baptist Church for 34 years, having been baptized by Rev. Lou Riddle.

When my husband died, I did not remarry. I have been a widow for more than 52 years and still keep house. I am still able to do most of my work and keep a garden every year.

I don't wear glasses unless I sew or read.

I have 52 grandchildren and 70 great-grandchildren.

I have been in Perry County since April 12, 1896. I thank the Lord for all my blessings.

Editor's Note: This woman's life shows what a person can do with very little money, but good management. We are very glad to have the opportunity to print her life story and give her The Hazard Herald for the rest of her life, which we personally hope will be for many, many years.

Imagine! Now There's A More Attractive Way To Hear Clearly Again!

By BILL GARDNER

BILL GARDNER

Imagine! Now There's A More Attractive Way To Hear Clearly Again!

Today I'd like to pass along some wonderful news about an amazing new hearing aid by Beltone.

This powerful new aid is more than just light-weight and inconspicuous. It is actually good-looking as well!

Hard to imagine! Well, you don't have to imagine it. Instead, I'd like to invite you to see and try Beltone's new, dramatically handsome Nova Hearing Glasses for yourself!

These trim, flattering glasses are the latest thing to come out of the Beltone Electronics' Laboratories. They were designed for Beltone by an internationally famous designer. Their slim lines are good-looking on men... and discreetly flattering to the ladies.

They're light, too, actually the lightest, lightest-weight hearing glasses Beltone has ever built. And they're so comfortable to wear that you soon forget you have them on.

Yet these Nova glasses have brilliant new hearing power to spare. They will dramatically help a great majority of all correctable hearing losses!

I think you will be as amazed as I was at the beauty and hearing clarity of Beltone's new Nova Glasses.

Perhaps I can help you to better hearing as we have so many others. Just phone 436-5314 for an appointment. If you cannot come to Beltone of Hazard at Fuller-Potts Building, we can arrange for a consultant to call at your home.

This consultation will be made without fee.

Watch this column for more news of solved hearing loss problems.

Garden Is Source of Food and Enjoyment; Make It A Pleasure

Paul Keen — County Agricultural Agent

Crabgrass is an annual grass that reproduces by seeds and rooting at the lower joints of the stem. It grows to maturity and develops seeds from July until September or October, then dies. In Kentucky crabgrass seeds usually start germinating in late April or early May.

Best crabgrass control can be obtained in established bluegrass lawns by using recommended pre-emergence (before crabgrass seeds germinate) herbicides in late March or early April.

Chemicals being recommended this year for pre-emergence crabgrass control are bandane, dacthal, zyturon, and calcium arsenate. These are available as active ingredients in "crabgrass killers" sold under various trade names. The chemicals are available in dry form and can be applied with either a fertilizer spreader or a cyclonetype seeder. They are usually packaged in quantities to cover from 2,500 to 3,000 square feet of lawn. FOLLOW DIRECTIONS ON THE LABEL OF THE PARTICULAR PRODUCT PURCHASED.

Besides using chemicals, good lawn management will aid considerably in controlling crabgrass as well as many other lawn weeds. Proper fertilization of the lawn in early spring will stimulate the growth of desirable grasses. Mowing the grass at a height of at least 2 inches will aid in preventing crabgrass from becoming established. Crabgrass does not grow well in shade; therefore, if the lawn grass is mowed

high, germinating crabgrass seedlings will likely be crowded out.

Plan your control program now. Don't wait until crabgrass has crowded out desirable lawn grass. It will then be too late to do much about controlling the weed this year.

Fruit Varieties for Kentucky
Selection of adapted fruit and nut varieties is very important in any commercial or home production venture. Listed below are a number of varieties that have proved satisfactory over Kentucky. A selection of varieties from this list should prove adequate for either commercial or home use. However, at all times, do business only with reputable nurserymen.

KEY TO SYMBOLS: (R) red, (Y) yellow, (W) white.
Note: Various fruit varieties listed in general order of ripening.

APPLES (use red sports where available): Early — Lodi (Y) or Transparetn (Y); Summer — Polly Eades (Y), Wealthy (R), McIntosh (R), Paducah (R); Fall — Jonathan (R), Red Delicious (R), Golden Delicious (Y), Turkey (R), Sytman (R), Rome (R).

PEARS — (fire-blight resistant): Maxine (best eaten raw), Waite, Magness, Moonglow, Kleffer.

PEACHES: Cardinal (Y), Sunhaven (Y), Redhaven (Y), Raritan Rose (W), Golden Jubilee (Y), Triogen (Y), Halehaven (Y), Georgia Belle (W), Redskin (Y), Elberta (Y), Late-rose (W).

NECTARINES: Redbud (W),

Lexington (Y), Redchief (W), Cavalier (Y).

PLUMS: Methley, Bruce, French Damson, Bluefre (Sour cherries more dependable than sweet cherries).

SOUR CHERRIES: Early Richmond, Montmorency.

GRAPES: Black — Fredonia, Buffalo, Concord, Sheridan; White — Portland, Niagara, Golden Muscat; Red — Lucile, Delaware, Catawba.

STRAWBERRIES: June Bearing — Earldawn, Blakemore, Pocahontas, Citation, Dixieland, Surecrop, (red stele-resistant), Tennessee Beauty, Everbearing Gem or Superfection.

RASPBERRIES: Black — Bristol. Red — Latham, September (everbearing).

BLACKBERRIES: Hillenmeyer, Bailey, Hedrick, Darrow.

GOOSEBERRIES: Downing, Poorman, Fredonia, Pixwell.

BLUEBERRIES: Earliblue, Berkley, Dixi, Stanley, Jersey. **PECANS** — (use "Northern" varieties only): Major, Giles, Posey, Greenriver, Colby, Peruyue.

BLACK WALNUT: Sparrow, E. Myers, Ohio, Stabler, Farrington, Vandersloot.

HARDY ENGLISH WALNUT (Carpathian Walnuts): Broadview, Colby, Hansen, Fately.

CHINESE CHESTNUT: Nahking, Meiling, Kuhlring, Chase, Orren, or Chinese chestnut seedlings.

Filbert or Hazelnut: Reed, Potemac, Bixby.

The Home Vegetable Garden:

Your vegetable garden is a source of food and enjoyment. You can make it either a neighborhood show place or primarily an investment of time, fertilizer and seeds, or both.

Gardening can be as simple or as complicated as you care to make it. There is no single "best" way to grow any garden vegetable. Plants, like humans, thrive under a wide range of conditions; but they do best in an environment to their liking.

Some of the essentials of good gardening are:

1. Be lazy but not too lazy. This means be smart enough to do all necessary work but lazy enough not to do unnecessary work. Be realistic in planning the garden — don't plant five to ten times more than your family needs. Use mulches of straw, sawdust, or leaves to reduce labor, increase moisture, and control weeds. Apply the correct amounts of fertilizer to insure adequate plant food. Control insects and diseases for top quality and high yields.

2. Consider your family's health in choosing vegetables to plant. Green leafy and yellow vegetables taste better and are much cheaper than a doctor's prescription. Most of the vitamin A and C an individual needs can be supplied from a good vegetable garden.

3. Make gardening a pleasure. A small garden producing top quality vegetables gives much more than just food for the table. A neat, well kept garden bordered by flower and shrubs adds beauty to the surroundings and much pleasure to the owner.

4. Have the garden near the house. This saves many steps, and the housewife is much more likely to make efficient use of it.

5. Gardening should involve the whole family. Give the young folks as well as the older ones an opportunity to share in planning and caring for the garden. A few watermelons and cantaloupes will do a lot to involve the children. A few rows of popcorn and peanuts will add to the winter pleasure of the children.

OFFICIAL PROPOSAL

City of Hazard, Hazard, Kentucky
Proposal for Construction of Extensions to Sewer Systems
Hazard, Kentucky

Sealed proposals for general construction to include materials, supplies, labor and all else of extensions to sewer system of the City of Hazard, Perry County, Kentucky, will be received by the Board of Commissioners of the City of Hazard in the Board Room of the City Administration Building High Street, Hazard, Kentucky up to 1:00 P.M., EST, March 19 1964 and then and there opened and publicly read aloud.

Plans specifications, information for bidders and other documents may be examined without charge at City Hall, Hazard, Kentucky or at the Office of H. A. Spalding, Engineer, Hazard, Kentucky.

A set of plans and documents may be obtained at the office of either the Engineer or the Hazard City Manager for \$25.00. Any firm or person submitting a bid for the general construction upon returning a set of plans in good condition within ten (10) days after the opening of bids, will be refunded \$25.00. Additional sets may be purchased for \$25.00.

Any supplier or sub-contractor may purchase a complete set of plans and documents for \$25.00, or any portion thereof for the cost of reproduction, for which no refund will be made. The City of Hazard reserves the right to waive any informalities in or reject any and all bids and to negotiate with the apparent low bidder. Combination bids for the anticipated undertaking with other projects currently advertised will not be considered.

Each bidder must deposit with a bid security in an amount of not less than five percent (5%) of the base bid in the same and such other conditions provided in "Information for Bidders"; the successful bidder shall enter into written contract with the City of Hazard for the construction of said sewer and water line in accordance with said plans and specifications, and shall execute a surety bond to said City in the amount of said bid, conditioned upon the provisions of said contract and the payment of all labor and supplies used in construction of extensions.

No bidder may withdraw his bid within ten (10) days before the actual date of opening thereof.

All bids should be sealed and marked "Bid for the Construction of Sewer Extension" and address to the Hazard Board of Commissioners and delivered to Susie Brashear, City Clerk, at the office of the Hazard Board of Commissioners, High Street, Hazard, Kentucky.

By order of Hazard Board of Commissioners this the 20th day of February, 1964.

Speed Dodge Dart

Don't worry about anything serious going wrong with one of the new ones from Dodge. They call them "The Dependables"—because they are! Besides they're backed up with the strongest warranty on the market... 5 years or 50,000 miles.* But let's face it. New cars sometimes need little adjustments to get the "bugs" out of them. When you buy a new car from The Dodge Boys, you'll find that they'll bend over backwards to take care of any complaint you might have.

The Dodge Boys are a happy bunch, and they want you to be happy. And when you're happy, you might tell a neighbor. Then he might come and see Dodge, too, and that would make The Dodge Boys even happier. See how it works?

*HERE'S HOW DODGE'S 5-YEAR, 50,000-MILE WARRANTY PROTECTS YOU: Chrysler Corporation confidently warrants all of the following vital parts of its 1964 cars for 5 years or 50,000 miles, whichever comes first, during which time any such parts that prove defective in material and workmanship will be replaced or repaired at a Chrysler Motors Corporation Authorized Dealer's place of business without charge for such parts or labor: engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excluding manual clutch), torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings. Required Maintenance: The following maintenance services are required under the warranty—change engine oil every 3 months or 4,000 miles, whichever comes first; replace oil filter every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; and every 6 months furnish evidence of this required service to a Chrysler Motors Corporation Authorized Dealer and request him to certify receipt of such evidence and your car's mileage. Simple enough for such important protection.

LEATHERWOOD

Mrs. Miniard Hosts Leather wood Homemakers Club

By: M. Miniard

Leatherwood Homemakers Club met at the home of Mrs. Arthur Miniard on Feb. 28.

Devotionals were given by Mrs. Ola Campbell.

Mrs. Irene Miniard gave a report on "Citizenship" and discussed the possibility of the club sponsoring a roadside park in the area.

Mrs. Cecile B. Townes presented the lesson on "Kitchen Arrangements."

Refreshments of cherry pie, ice cream, and coffee were served to the following: Mrs. Ruby Hrashear, Mrs. Irene Miniard, Mrs. Ola Campbell, Mrs. Wanda Brashear, Mrs. Goldie Mooney, Mrs. Cecile B. Townes, and hostess, Mrs. Arthur Miniard.

Friends of Mr. Elmer Dorton, a former employee of Ritter Lumber Company, were saddened to learn of his death last week.

Mrs. Gwen Campbell accompanied her father, Mr. Henry Creek, to Lexington for a medical check-up on Tuesday. Mr. Creek is suffering from diabetes.

Joe Morgan, 88 years of age,

and a life-long resident of this community, recently passed away at the home of his son, Louis, on Line Fork. He is also survived by two daughters, Mrs. Iddie Sparkman, Delphia, and Mrs. Betty Jane Asher, La-Fayette, Ind. Burial was at the Stoney Fork Cemetery on Leatherwood.

Another former citizen of the Line Fork community passed away in Louisville where she had lived for many years. She was Mrs. Sally Riddle Boggs, daughter of the late Granville Riddle and wife of Mr. Astor Boggs, who survive. She is also survived by two sons, who live in Louisville. Her body was returned to Line Fork for burial. Funeral services were held at the home of Mr. and Mrs. Harrison Cornett by Rev. Rueben Riddle and Calvin Trent, Jr.

Mr. and Mrs. Arthur Miniard were in Louisville over the weekend to attend a dinner and sales meeting of Life Insurance Company of Kentucky at the Holiday Inn.

Mr. Arlie Couch has gone to Middleboro to work.

Mr. Hassel Couch who was

recently inducted into the Army, is stationed at Ft. Knox.

Mrs. Henry Mayher has returned from Wilmington, N. C., where she visited her daughter-in-law, Mrs. Jessie R. Tessler, who is in the hospital there.

Lois Dotson Makes

"A" Honor Roll

At Georgetown

Eighty-eight students have earned a place on the "A" Honor Roll at Georgetown College for the first semester of 1963-64, Registrar J. Foley Snyder announced.

The "A" Honor Roll is made up of students who have an average of 2.5-3.0. A perfect standing is 3.0.

One hundred forty-two averaged 2.0-2.49, and were named to the "B" Honor Roll.

One Hazard girl, Lois Dotson, is among the "A" Students.

HILL TALK

by The Journalism Class, Hazard High School

Members of the Hazard High Band left Thursday, February 27, for the annual Band Clinic at Morehead State College. About 300 music students and directors from Kentucky, W. Virginia, and Ohio attended. The students were divided into a Blue Band and a Gold Band. The Blue Band was under the direction of John K. Stetler and the Gold Band was directed by Nilo W. Hovey.

From Hazard, Sally Maggard, Bernard Faulkner, Dean Taylor, and Paul Stone attended.

Sally and Bernard were placed in the Gold Band, while Paul and Dean were in the Blue Band. Sally was placed in first chair piccolo and fourth chair flute, Paul Stone was at first chair in the third trombone section, Bernard was second chair first alto sax, and Dean Taylor placed second chair second cornet.

The two bands presented a concert at 3:00 p.m. Sunday.

H-T

Winners of the Senior Suppliative Election held recently by the Senior Class are as follows:

Best Looking: Janie Combs, Bobby Muncy.

Most Popular: Richard Magee, Judy Barrett.

Most Athletic: Butch Greene, Millie Dee Stevens.

Best Personality: Judy Boles, Stephen Napier, Jr.

Most Likely to Succeed: Margaret Tonts, Ross Brown.

Most Talented: Sally Ward, Maggard, Don Ward.

Best Dressed: Donna Marie Combs, Kenny Tate.

Best Sense of Humor: Leslie Rogers, Karen Conatser.

Most Dependable: Shelia Combs, Pete Gullett.

Best All Round: Rita Gross, Jimmy Osborne.

The Hazard High Pep Club has been reorganized by the cheerleaders to promote school spirit, loyalty, and sportsmanship throughout Hazard High. The club is making shakers and the cheerleaders are selling badges for the District and Regional Tournaments. The badges, selling for 25c, are blue and gold with this slogan "State Tournament Here We Come! HAZARD HIGH SCHOOL"

Miss Lois Kelly, sponsor of Debate, has announced the team for the Regional Debate to be held March 27th at the R. G. Eversole School. The debaters are: Pete Gullett, Don Ward, James Bryant, and Wallace Rogers. The winners of the UKREA region will go to Lexington for the State Meet.

At the February 27th meeting of the Spelling Club, sponsored by MISS GRIFFY, the members participated in the spelling and naming of the United States and their capital cities. The prize was awarded to CLARA LAWSON, with PATSY STACY as the runner-up. At the last meeting, March 4, the prize was raised to \$1.00 because a winner could not be determined. The prize is given after a spelling bee.

"Take him!"
"Take her!"
"Hitched!"

Yes, this is a complete wedding ceremony as given for an example by REV. LESLIE ROGERS to the FHA Club members at a meeting, recent. The Reverend Rogers talked to the girls on marriage vows. He is pastor of the Bowman Memorial Methodist Church on High Street, and he is father of RUTH ROGERS, senior at H.S., and 1st Vice President of the club. The example cited was one service which he used along the roadside one day on a couple who were in a great hurry.

Rev. Rogers told the significance of certain phrases used in the marriage ceremony and why certain other phrases had been omitted from the ceremony such as "if there is anyone present who knows any reason why this couple should not be united, let him speak now, or forever hold his peace."

This phrase was omitted mainly because if there were any objections the couple wouldn't be getting married in the first place.

H.S. Comments on the "Beetles" to date:

JINA CRAFT: "I love them."

MISS CHAMBERS: "You wouldn't put it on paper!"

MISS CALLAHAN: "Their sound is just like Homer and Jethro!"

KEITH REYNOLDS: "They're quite a change from Hazard High's Mixed Chorus."

WANDA ROBINSON: "They're stupid looking but I love them."

PATTI CAMPBELL: "They're precious."

MARY AVIS HALL and COOLEE JOHNSON: "They're the most wonderful thing that has ever happened to teenage America."

CONNIE ELAM: "They're absolutely fabulous."

CHUCK DONAHUE: "I like them."

MRS. ROSS: "No comment."

NAPFOR

Hoke Baker's Celebrate 39th Wedding Anniversary

By: Mrs. Maud Baker

There will be church at Napfor on April 12. Everyone is invited.

Bobby Baker has moved from our community to Willard.

Mrs. John Daulnfort, of Norfolk, Va., is visiting her mother, Mrs. Laura Napier, and her brother, Walter Napier, all of Napfor.

Mrs. Mae Campbell has returned home from Indianapolis,

where she has been visiting speedy recovery.

Mr. and Mrs. Hoke Baker celebrated their 39th wedding anniversary on February 21.

Mrs. Ivory Johnson visited her brother, Jack Deaton, who underwent surgery in a Virginia Hospital. We all wish him a

Mr. George Deaton has returned home from the hospital. We all wish him a speedy recovery.

Franklin Baker visited his aunt, Mrs. Melda Morgan at Bonnyman and friends in Hazard over the weekend.

OFFICIAL PROPOSAL
City of Hindman, Hindman, Kentucky
Proposal for Construction of Sewage Treatment Plant
Hindman, Kentucky

Sealed proposals for general construction to include materials supplies, labor and all else of construction of sewage treatment plant in the City of Hindman, Krotz County, Kentucky, will be received by the Board of Commissioners of the City of Hindman in the City Hall, Hindman, Kentucky up to 1:30 P.M. EST, March 24, 1964, and then and there opened and publicly read aloud.

Plans specifications, information for bidders and other documents may be examined without charge at City Hall, Hindman, Kentucky, Dodge Plan Room 840 Barret Avenue, Louisville, Kentucky or at the Office of H. A. Spalding, Engineer, Hazard, Kentucky.

A set of plans and documents may be obtained at the office of the Engineer for \$50.00. Any firm or person submitting a bid for the general construction upon returning a set of plans in good condition within ten (10) days after the opening of bids, will be refunded \$50.00. Additional sets may be purchased for \$50.00.

Any supplier or sub-contractor may purchase a complete set of plans and documents for \$50.00; or any portion thereof for the cost of reproductions for which no refund will be made.

The City of Hindman reserves the right to waive any informalities in or reject any and all bids and to negotiate with the apparent low bidder. Combination bids for the anticipated undertaking with other projects currently advertised will not be considered.

Each bidder must deposit with a bid security in an amount of not less than five percent (5%) of the base bid in the same and such other conditions provided in "Information for Bidders"; the successful bidder shall enter into written contract with the City of Hindman for the construction of said sewer line in accordance with said plans and specifications, and shall execute a surety bond to said City in the amount of said bid, conditioned upon the provisions of said contract and the payment of all labor and supplies used in construction of sewage treatment plant.

No bidder may withdraw his bid within ten (10) days before the actual date of opening thereof.

All bids should be sealed and marked "Bid for the Construction of Sewage Treatment Plant" and addressed to the Board of Commissioners and delivered to H. H. Taylor, City Clerk, at the office of the City Hall, Hindman, Kentucky.
